Plantation Shutters

# About Us

All Blinds and Shutters are a family run business based in South London. We specialise in Made to Measure Bespoke Plantation Shutters, personalised to your taste and decor.

We guarantee the finest hard wood shutters, and offer the best design advice, whatever your space, style and budget. We have worked hard to establish ourselves as one of the leading shutter companies in London and the South East.

Working alongside our manufacturing team we aim to offer the best lead times and service to our clients.

# Our Shutters

ALL BLINDS  
& SHUTTERS

We offer a cost effective shutter range to suit all budgets, from our popular entry level MDF shutters, through to our flagship FSC certified White Teak range.

All Blinds and Shutters are a family run business with over 35 years experience, and one of the reasons is that we only supply shutters that are built to last and have a long life guarantee. Our shutters are manufactured in our factory in China, and our company offer the highest level of experience in timber and building materials. We ensure that only the best machinery, materials, staff and paint finish are used at all times on our full range of made to measure shutters, for all shapes and sizes of windows and doors.

Once your shutters are manufactured, they are then quality checked and fitted by our friendly team of experienced fitters to ensure the product and experience is nothing but perfect. Please call 0800 098 8150 today, where we can answer all your questions, offer advice and solutions for any shutter requirement.

# Shutter Range

Custom Made Shutters

## SEATTLE SHUTTERS

**A popular choice, an affordable yet hard-wearing and robust shutter.**

Seattle is our most popular choice of shutter. Not only is this range tough and durable as it's made from MDF and coated in polymer, it's a more affordable option and has a wipe clean surface. It's a recommended option for high traffic areas within the home.

### Main Benefits:

- ✓ Our most popular choice of shutter
- ✓ Affordable yet durable shutter
- ✓ Hard-wearing & robust
- ✓ Available in our most popular colours
- ✓ Available in all tilt types

## GEORGIA SHUTTERS

**A brilliantly durable MDF shutter that looks as good as real wood.**

Our Georgia range is a fantastically adaptable shutter. Made from MDF panels and frames with ABS louvres, this range looks as good as a real wood shutter but has more durability. The ABS louvres also allow panels to cover wider expanses.

### Main Benefits:

- ✓ Brilliantly durable shutter
- ✓ Great for wide expanses
- ✓ Available in all tilt types
- ✓ Large single panel width limit
- ✓ Looks as good as a real wood shutter but made from MDF

TO BOOK YOUR **FREE CONSULTATION** CALL **0800 098 8150** OR **07949 449 760** TODAY

## BOSTON SHUTTERS

Our solid basswood shutter that's high quality but low cost.

The Boston shutter range is crafted from beautiful solid basswood panels. These shutters work well in any type of setting, be it contemporary, traditional or country living. Hardwood panels ensure this range is high quality whilst still low cost.

### Main Benefits:

- ✓ Made from solid basswood
- ✓ High quality but still low cost
- ✓ Robust hard-wearing frame
- ✓ Available in all tilt types
- ✓ Light control and privacy

## MONTANA SHUTTERS

The newest edition to our shutter collection made from premium hardwood.

The Montana shutter has a stunning tight grain with a smooth finish, and are well suited to rooms that require extra durability. Stained colour finishes are also available in the Montana range, allowing customers to see the beautiful grain of the wood shutters beneath.

### Main Benefits:

- ✓ Full wood shutter
- ✓ Made from premium hardwood
- ✓ Concealed hinge available
- ✓ Available in all tilt types
- ✓ Large single panel limitations
- ✓ Light control and privacy

# Shutter Range

## HOLLYWOOD SHUTTERS

A shutter perfect for rooms where a high performance finish is required.

This ABS shutter range is highly resistant to water, so makes another great shutter choice for Kitchens and Bathrooms. The Hollywood range has superior strength to prevent warping, denting and chipping, as it's made from ABS and has a beautiful matte finish.

### Main Benefits:

- ✓ Highly resistant to water
- ✓ Light control & noise reduction
- ✓ Available in all tilt types
- ✓ Great for kitchens and bathrooms
- ✓ Privacy

# Shutter Styles

ALL BLINDS  
& SHUTTERS

## FULL HEIGHT SHUTTERS

Our most popular option, full height panels cover the whole window. Full height shutters often have a divider rail or split in louvre controls so you can operate the slats above and below it independently to control light.

Full Height shutters are great for insulation, privacy and noise control and are best suited for tall windows, French or patio doors. However, they can be adapted to any type of window.

Shutters also provide fantastic insulation during the cold winter months, whilst in summer keeping rooms cool from the sun's rays.

Full height shutters offer great insulation, privacy and noise control

## TIER-ON-TIER SHUTTERS

Similar to the old fashioned saloon doors, Tier-on-Tier offers a separate top tier that opens independently from the bottom. This gives you the added benefit of increasing light into a room by having the top tier open, whilst maintaining privacy by leaving the bottom tier closed.

Tier-on-Tier shutters can be customised to have the split between the tiers lining up with your window, or at any position you require for the look you want to obtain.

Tier-on-Tier also offers great protection against the British weather, helping to keep in heat during the winter whilst stopping your rooms from overheating in the summer.

Tier-on-Tier shutters are brilliant for bedrooms, bathrooms and dining rooms

# Shutter Styles

## CAFÉ STYLE SHUTTERS

Café style shutters cover only part of the window and give a lovely continental feel. This chic design gives you the opportunity to enjoy the privacy of the shutters whilst still experiencing the sunlight into the room.

This shutter style is perfect for kitchens and road facing rooms where privacy is at a premium.

They're great as a decorative element to your window and a fantastic way to enhance existing window features such as stained glass or low arches. This allows you to still experience the original design of the windows whilst enjoying the elegant style of shutters.

**Brilliant for windows with features such as stained glass or low arches**

## SOLID PANEL SHUTTERS

An alternative option to fully louvered panels solid shutters are exactly as their name suggests. If you are looking for a sense of Victorian style & glamour then solid shutters may be the option for you. Solid panels do not have operational louvres so do need to be opened in full to let the light in, however they come into their own at night by offering a minimal light bleed.

As they do not have louvres, solid panels also offer even better insulation and can be perfect for older properties or those with single glazed windows. Some customers even use our solid shutters as room dividers when combined with a track system. Due to their construction, solid panels are only available in our wood ranges.

**They're a great choice for bedrooms or rooms that are draughty, and for heat and noise insulation**

TO BOOK YOUR **FREE CONSULTATION** CALL **0800 098 8150** OR **07949 449 760** TODAY

## TRACKED SHUTTERS

Rather than fitting shutters in the usual manner, these shutters slide on a track. They're an ideal choice for large glass expanses and we offer numerous different options for tracked shutter installations.

From panels that bypass and slide past each other, bi-folding track that can be made to almost any configuration required, options for both inside and outside the recess, right through to clever tracked shutters that sit together with our standard frames to blend seamlessly with a customer's other shutter installations.

**A contemporary solution ideal  
for large glass expanses**

## SHAPED SHUTTERS

No matter the size or shape of window there is a shutter to suit. Shutters can be made to fit any speciality window, from stunning arches, circular port holes, gothic church windows, and fantastic angular triangles.

We are sure that we can find a solution for all of your special shaped windows and build and install a shaped shutter to go beyond your expectations.

Special shaped shutters are available in the majority of our shutter ranges depending on the style required. Available with either straight or sunburst style louvres you can still control the light in even the most obscure of feature windows.

**No matter the size or shape of  
window there is a shutter to suit**

# Split Tilt Louvre Shutters

Our split tilt louvre shutter option offers you the flexibility to be able to open or close different sections of louvres in a panel separately, which is great as it gives you the ability to be able to control both the light and privacy in a room. This allows you to for instance close the bottom part of the shutter louvres for privacy, while leaving the top section of louvres open to allow the light in, the split tilt option is very popular and is available on our full height shutters.

TO BOOK YOUR **FREE CONSULTATION** CALL **0800 098 8150** OR **07949 449 760** TODAY

# Midrail Shutters

ALL BLINDS  
& SHUTTERS

Our midrail shutter option is available on our range of full height shutters, especially good for use on taller windows, it is a horizontal bar which breaks the shutter panel into two sections allowing the louvres at the top and bottom of the shutter panel to be adjusted independently, you can for instance close the louvres below the midrail for privacy, and leave the louvres above the midrail open to allow light in (or vice versa), whilst retaining that classic plantation shutter look.

# Solid Shutters

Used extensively over the last couple of centuries in the UK, solid shutters offer better control over light filtration. Solid shutters are fitted in the same way as louvre shutters and are used a lot for folding/concertina tracked partitions and they make very good quality, light folding doors.

## Shaker

## Solid Raised

12mm thick centre panels with 28.6mm x 40mm stiles. Now with rebated top and bottom rail options for tier on tier for even less light infiltration.

## Shaker with Insert

## Solid Base/Louvre Top

As solid raised but with top louvres, very suitable for sliding partitions and French Windows with solid bases.

TO BOOK YOUR **FREE CONSULTATION** CALL **0800 098 8150** OR **07949 449 760** TODAY

# Conservatory

## ALL BLINDS & SHUTTERS

Conservatory shutters, apart from looking great, offer a great deal of flexibility simply not possible with most shading options. Unlike fabric based shading systems, shutters are easy to clean and will not rot, sag or age over time. For long sections they can be mounted on tracking to slide away when not in use.

Shutters are also used for partitioning and as multi fold internal doors. Quite often the opening to the conservatory may have shutters suspended on a top track. The solid base and louvre top shutters are used extensively for these applications.

Luxury

# Fitting

Our expert fitters will install your shutters for you. There are many ways to install your shutters and there is no one way that is better than another. You may have them installed inside the reveal, the most common way, or on the edge of the reveal or outside the reveal, all are permissible methods. The room will generally dictate the fitting location.

Our hinges are made especially for our shutters and our screws are made especially for our hinges with matching screw heads. Either match or contrast hinges to shutters, sometimes odd combinations work very well, bisque hinges with silk white panels for instance. For wet environments it is recommended that our marine grade stainless steel hinges are used.

Frames are used extensively for fitting but may not be suitable for severely out of square openings (most openings in older houses are not perfectly square). Shutters are made square unless specially shaped and will not hide a subsided bay window or tilted window sill entirely. We will advise you on all the available options for your shutters.

# Custom Made Blinds

# ALL BLINDS & SHUTTERS

All Blinds & Shutters are manufacturers, suppliers and fitters of quality custom made professional blind systems. Our custom made blinds are available in a range of 100s of styles and fabrics, all with free measuring and fitting.

We offer many different styles of quality blinds which are all custom made to fit where required, from lounges to bedrooms, bathrooms to conservatories and more.

## Features

Our exclusive finishing process makes our colours and textures the richest you'll find. Choose from a wide array of the latest and most popular paints and stains. Or why not opt for our custom colour matching service, and choose any Dulux or Farrow & Ball shade to compliment virtually any shade of room. We offer more features, colours, tapes and trims than anyone else, creating made to measure blinds brimming with character.

Roller, pleated and venetian blinds for double glazed windows, doors and conservatories

Louvolute Perfect Fit™ is the most attractive and innovative window blind available on the market today. The system is unique because the window blind fits neatly into a stylish frame, which moves together with the windows and doors when they are opened and closed giving you the perfect combination of shade and ventilation.

- A huge range of fabric colours and textures to match your interior design scheme
- No drilling or screwing into your window frames for a quick and clean installation
- Reduced gaps at the edge of the blinds increases your privacy
- Child safe because there are no loose cords or loops
- Leaves window sills clutter free
- Easily removable for cleaning

Perfect Fit™ is a recognised child safe product in accordance with BBSA regulations
